---

## Professional Summary

Motivated Full-Stack Developer with experience building AI-powered applications, cloud-hosted web solutions, and database-driven systems. Skilled in Python, Java, React.js, AWS, API integration, and modern software development practices. Passionate about creating scalable applications, intelligent automation systems, and cloud-native solutions.

## Education

**Karpagam Institute of Technology**

Coimbatore, India

Bachelor of Technology (B.Tech) – Information Technology

CGPA: 7.7/10

## Projects

### BayBot – Personal AI Assistant

- Engineered a local-first AI assistant integrating Google Drive, Gmail, and Google Calendar APIs.
- Implemented memory management and personalized user preference learning.
- Utilized Python, SQLite, REST APIs, LLMs, GitHub, and VS Code.

### Cloud Deployment of Web Applications

- Developed and deployed a cloud-hosted meal search platform using AWS S3 and React.js.
- Integrated MealDB API to dynamically retrieve and display 1000+ recipes.
- Optimized frontend performance using React and Tailwind CSS.

### Restaurant Reservation & Ordering System

- Built a restaurant reservation and food ordering platform using Java technologies.
- Implemented MVC architecture with JSP, Servlets, and SQL databases.
- Developed secure order processing and menu management features.

## Technical Skills

**Programming Languages:** Python, Java, C, SQL

**Frontend Technologies:** HTML, CSS, React.js, Tailwind CSS

**Backend Technologies:** Node.js, JSP, Servlets

**Cloud Platforms:** AWS (S3, EC2, IAM)

**Databases:** MySQL, SQLite

**Developer Tools:** Git, GitHub, VS Code

**Core Concepts:** REST APIs, MVC Architecture, Object-Oriented Programming, Cloud Deployment, AI Agents

## Certifications

- Cisco Networking Essentials
- Introduction to SQL – Simplilearn
- Human Computer Interaction – NPTEL
